Abstract. *This meta-paper describes the style to be used in articles and short papers for SBC conferences. For papers in English, you should add just an abstract, and for papers in Portuguese, we also ask for an abstract in Portuguese (“resumo”). In both cases, abstracts should not have more than 10 lines and must be in the first page of the paper.*

Resumo. *Este meta-artigo descreve o estilo a ser usado na confecção de artigos e resumos de artigos para publicação nos anais das conferências organizadas pela SBC. É solicitada a escrita de resumo e abstract apenas para os artigos escritos em português. Artigos em inglês, deverão possuir apenas abstract. Nos dois casos, o autor deve tomar cuidado para que o resumo (e o abstract) não ultrapassem 10 linhas cada, sendo que ambos devem estar na primeira página do artigo.*

1. General Information

All full papers and posters (short papers) submitted to any SBC conference, including any supporting documents, should be written in English or in Portuguese. The paper should be formatted to A4 paper, with single column, 3.5 cm for top margin, 2.5 cm for bottom margin, and 3.0 cm for side margins, without any headers or footers. The main font must be Times, 12 points in nominal size, and 6 points vertical space before each paragraph. Page numbers must be suppressed in the final version. Full papers must respect the page limits defined by the conference. Conferences that publish just abstracts ask for one-page texts.

2. CD-ROMs and Printed Proceedings

In some conferences, the papers are published on CD-ROM while only the abstract is published in the Proceedings. In this case, authors are invited to prepare two final versions of the paper. One, complete, to be distributed in CD and the other, containing only the first page, with abstract and “resumo” (for papers in Portuguese) for the printed version.

3. First Page

The first page must display the paper title, the name and address of the authors, the abstract in English and *resumo* in Portuguese (for papers written in Portuguese). The title must be centered over the whole page, 16 points boldface font. Author names must be centered, 12 points font, boldface, all of them disposed in the same line, separated by commas. Addresses must be centered, 12 points font. The abstract must be 12 points font, indented 0.8cm on both sides.

4. Sections and Paragraphs

Section titles must be in boldface, 13pt, flush left. There should be 12pt of extra space before each title. Section numbering is optional. The first paragraph of each section should not be indented; the first lines of subsequent paragraphs should be indented by 1.27 cm.

4.1. Subsections

The subsection titles must be in boldface, 12pt, flush left.

5. Figures and Captions

Figures and tables captions should be centered if less than one line (Figure 1), otherwise justified and indented by 0.8cm on both margins. The font must be Helvetica, 10 point, boldface, with 6 points of space before and after each caption.

In tables, do not use colored or shaded backgrounds, and avoid thick, doubled, or unnecessary framing lines. When reporting empirical data, do not use more decimal digits than warranted by their precision and reproducibility.

6. Images

All images and illustrations should be in black-and-white, or gray tones. The image resolution on paper should be about 600 dpi for black-and-white images, and 150–200 dpi for grayscale images. Do not include images with excessive resolution, as they may take hours to print, without any visible difference in the result.

7. References

Bibliographic references must be unambiguous and uniform. We recommend giving the author names references in brackets, e.g. [1], [2] or [1, 2].
